

# What Warriors Are Saying

## **I believe this place to be life saving.**

I cannot brag about it enough. The facility and the grounds are beautiful. The Warriors Heart team is extremely hard working and they seriously care about every client as if they were family. I have become the person I am supposed to be here, I have renewed my life and have a fresh start.

We are all very blessed that this place is here, so we can live and flourish like we're supposed to.

Thank you.

— Dallas, Firefighter

## **Warriors Heart is truly unique and irreplaceable. The facility and people here are genuine and caring. If you are honest with yourself and want the help, this program will provide you with all the tools you need.**

— Lt. Michael, Firefighter

Six weeks ago I arrived as a dead man walking, a zombie. I had lost everything that I loved in life, everything that I had worked for my entire life.

## **I'm leaving today a changed man.**

I'm free from the burdens that damn near killed me. I'm going back to the family that wanted nothing to do with me. This wasn't a possibility in my mind six short weeks ago. This place is the real deal. Work your program and hold on, you will be amazed! This being sober thing is pretty Bad Ass! Get'er Done!

— Ryan, Firefighter

## **I'm grateful to finally have found a place to treat the whole person.**

I've struggled with addiction my entire life, but Warriors was the first place that allowed me to take a deep dive into why I kept struggling and relapsing. To be among my peers made it that much better of an experience.

— Michael, Firefighter

# What Warriors Are Saying

**Warriors Heart is truly unique and irreplaceable. The facility and people here are genuine and caring. If you are honest with yourself and want the help, this program will provide you with all the tools you need.**

— Alex, Firefighter

Came in nervous not knowing what to expect but from the time I was picked from the airport to now, I have been treated with respect, dignity, and like family. Experienced a life changing event here at Warriors Heart and truly believed that Warriors Heart saved my life. Staff, and all therapists are Genuinely compassionate people who want to see us Warriors get our life's back in order so we may live a Sober, happy and peaceful life. I will be truly forever grateful to all the staff, therapists, and other Warriors that have become like brothers to me. So thank You All.

— Michael, Firefighter

**Warriors Heart was very helpful in the treatment/recovery of my PTSD. This program is beneficial to All First Responders and the men and women of our Armed Force.**

— Mike, Firefighter

**I think that Warriors Heart is a very special place.**

My life has changed in so many ways, not just enabling me to not drink alcohol. I have learned so much about myself and others. As a military veterans and career firefighter, the ability to come to a place that understands how I tick is phenomenal. Warriors Heart will forever be in my prayers and thoughts. I felt compelled to leave a part of me behind, my badge. Thank you just doesn't seem enough!

— Dan, Firefighter, MIL

# What Warriors Are Saying

**This is the only facility I thought would be the right fit for me.**

The commonality with others in the program, in addition to a staff that gives everything they have made this **THE ONLY TREATMENT FACILITY I WOULD SUGGEST** for those that have or are currently serving their country or communities.

— Jeff, Firefighter

My Warriors Heart experience has literally been a life altering event!

In more ways than one, the staff and program has essentially **SAVED MY LIFE!!!!** I leave here with my head held high confident that I now possess the necessary tools required to tackle life on life term!!

**I'm extremely grateful to all of the staff members at Warriors Heart, as they have instilled a renewed confidence in my heart, mind, and spirit!!**

For this wonderful gift, I shall forever remain humble and bless. Thank you to everyone who had a part in helping me walk this powerful journey. I am quite simply put, in your debt!

— Justin T.
